Our customer was very happy with the limo service provided by First choice Limousine. He said the driver was great. Edward was very good at communicating even when he was on the road and helped us tremendously with a last minute booking. Excellent customer service. I would highly recommend.

Excellent service. Never mind other limo services. First Choice is the only one you should use. Professional people keep you updated with texts before your trip. On-time always. Al and Ed are top notch.

These guys were great from start to finish. You get constant updates and communication via text messages and emails.

You know who your driver is, and the status. They track your flights, in case you're running late or early. I had a great experience with my driver, and plan on using them throughout the year.

When you're traveling for business, it's very important to minimize stress and when it comes to getting back-and-forth to the airport safely and on time, these guys are, and hopefully will be my "first choice" moving forward.

Great service. We've used them several times. The price seems steep, until you check the cost of parking your car long term at JFK, then they are a steal!

First Choice Limousine provided outstanding professional service -- a super-clean vehicle, an on-time (actually early!) arrival at my home, a personable driver, a safe, on-time arrival at the airport. I have used this service before and will do so again.

Look no further! These guys are THE BEST!

May 2018 I needed a ride for my wife and I, 13 pieces of luggage - and two dogs from Princeton to the Brooklyn Cruise Ship terminal to catch the Queen Mary 2 to England. Needless to say if we were not on time.... we miss the boat!

I then contacted them 5 months later in October for a return pickup when we returned on the Queen Mary 2

Both times I spoke with Al (1 of the 2 owners) who is the best. He assured me that they would be on time and they were. Robert was early and waiting for us both times.

Clean well maintained cars, courteous professional drivers, punctual and dependable. Responds to your phone calls and emails.... A well run professional organization.

Everything that you should look for in a limo service is found right here.

Thank you Al, Robert, and the rest of the folks at First Choice. You have a customer for life!

Very reliable and prompt. Text and email updates are very helpful. Can highly recommend especially if you are first time customer. I had to make a switch as previous limo company is no longer in business. Glad I found a great alternative

I have hired First Choice to drive my mother on several long trips which were too far for her to drive on her own. The drivers have all been excellent and courteous and punctual. They reached out via email to confirm the pickup several times in the days leading up to the trip. Given the amount of communication we had zero concern about whether they would show up. We will continue to use First Choice and strongly recommend.

Because I live on the west coast, I have used First Choice Limo each time my son has needed to get to/from his NJ college campus and Newark Airport for the past three years. Their service is always exceptional! Professional and friendly drivers who are always on time. I have the utmost confidence in First Choice Limo.

Needed to find a car service to take us from Newark airport to Philadelphia. Our search lead us right to Eddie and his team at First Choice Limousine. The office staff was knowledgeable and offered advice on coordinating my travel arrangements. The car was clean and spacious. The driver was friendly and courteous. Even provided cold water bottles in the car to and from the airport. I don't think I'll ever drive myself to the airport again!! I'm happy to recommend First Choice Limousine to all my friends and family

First Choice is definitely my "First Choice" for any car service. They are fantastic and go out of their way to help. Ivy, the lady at the reservation desk, arranged a car service to pick up my five relatives from Newark Airport on Thanksgiving day, even though they do not usually work on Thanksgiving day. This was a great help to me because I was so busy preparing the Thanksgiving dinner for a crowd and had no time to go to pick up my relatives. Ivy was extremely helpful and friendly. On Thanksgiving day, the driver, Joe, was on time, courteous and helpful. I used First Choice a few days later to send my relatives to JFK. Again, the driver, Joe, showed up at my house on time and very helpful. Throughout this process, I can always reach a knowledgeable person by phone easily, including on Thanksgiving day morning. I highly recommend this service. Use First Choice, you'll be in good hands.
